

CITY AND SUBURBS.

Spadra will have a telegraph office in a few days.

The Senator and Pacific will leave for San Francisco tomorrow at 4 P. M.

The Constantine sailed yesterday for San Francisco and way ports.

Mr. Sam. W. Piercy gave an entertainment at San Bernardino last night.

We had another shower yesterday, which added to the general freshness of things.

Mr. Strelitz, our affable merchant tailor, lately received a present of a beautiful bosom-pin. If you don't believe it, ask him.

People having property to insure will do well to read the advertisement of the Commercial Insurance Company of California, which appears in today's HERALD.

Five culprits were before his honor this morning on charges of drunkenness. They were each sentenced to twenty days in the chain-gang.

Our merchants will find in another column a notice to the effect that the Internal Revenue tax is now due and payable before May 1st, proximo.

One hundred bales of wool were received for shipment at the depot yesterday—the largest receipts for any one day this season.

Mr. Messenger, of San Gabriel, has sold during the last two weeks eleven hundred dollars' worth of young orange trees, to be removed to Gilroy and San Jose. The trees are six years old, and vary in price from \$5.50 to \$6 each.

The Lewis Brothers, whose entertainment is highly spoken of by our contemporaries, arrived last night, and will shortly give several exhibitions in this city. See advertisement in tomorrow's HERALD.

We were in error in stating in Sunday morning's HERALD that Dr. McKee's office was removed to 233 Main street. That is the residence of his office is permanently located at No. 1 Spring street, opposite Temple's bank.

Under the new management the Clarendon is becoming one of the most popular hotels in the city. The table is first-class. Having two farms of his own, Mr. Brown is enabled to furnish his guests with milk, cream and vegetables of his own production.

Edward Hoff & Co. will open a new stock of goods in the store-room next to the HERALD office. They will keep on hand a good supply of first-class dry goods, clothing, fancy goods, boots, shoes, carpets, oil cloths, etc. Call on them, see their stock, learn their prices, and then you will buy.

Complaint was entered before Justice Trafford yesterday by J. A. Cline, against some evil-disposed John Doe for assault and battery. Cline also swore out a peace warrant against one Gilroy for threatening to take the life of J. Cline, the younger. There seems to have been quite an interesting family squabble between the Clines, the Gilroys and the Dones.

After the lecture on Sunday night by the Rev. Mr. Campbell, Stephen Massett, at the request of the minister, read a charming little composition called "Nothing but Leaves," very much, it would seem, to the satisfaction of the pastor and the congregation—for Mr. Campbell thanked Mr. Massett at its conclusion for the pleasure the reading of this little gem had given them.

STEVE MASSETT TO-NIGHT.—"Pipes" gives his farewell entertainment at the Merced Theater at 8 to-night, and we hope he will get a "bumper house at parting." He will sing some new songs, give some new laughable and comic illustrations, and by request imitate Madame Anna Bishop in "Home, Sweet Home"; he also introduces a comic sketch in character of a strong-minded female in a short lecture on "Woman's Rights." Go early and get your seats.

Mr. George Washington Elphinstone is a humbug. He has been representing himself to the good people of this place as a Mason, a graduate of the Royal College of Dublin, Ireland, and almost anything and everything else honorable, thereby obtaining money to alleviate his apparent destitution. It is now claimed that he is a royal arch post-graduate fraud, and he is held to answer for his little indiscretions before Justice Trafford this morning.

An opportunity will be given to-day at the skating rink to secure a gold or silver watch, a handsome set of diamonds, or other valuable articles. The cost of securing these valuable goods will be only one dollar. The goods will be disposed of on the new and novel general average plan. All the articles are placed in small boxes, sealed, and then thoroughly mixed. The purchasers will be allowed to take their choice of boxes on the payment of one dollar. If they are fortunate enough to select one containing a gold watch or beautiful set of diamonds, no extra charge will be made. We understand that every box contains an article worth at least a dollar. We refer our readers to a large advertisement in to-day's issue for full particulars.

A MIRACLE, A MIRACLE.—A miracle was performed in the Episcopal church at San Gabriel Mission, Rev. Mr. Messenger, minister. The church is a pretty little structure of brick near the residence of the minister, and the door is not always locked. We are particular to mention this, because we do not believe the angel ever plumed wing that equalled Ensign, in the San Francisco jail, in the business of picking locks. The other day a visitor at Mr. Messenger's went into the church and was astonished to see on the altar a complete silver sacramental service. He returned to the house and made some remark on the carelessness of leaving so much silver in an unlocked church. That it was there at all astonished the minister and family, not one of whom had a notion of its being in the church, or how it came there. The age of miracles has gone, but whatever has been may be again, and what is to be will be, besides, whatever is right. We hope Minister Messenger will accept the service, use it and ask no questions. It may have been placed on the altar by an angel with wings, but most likely it is the gift of some good man or woman who cannot fly without a balloon.

Personal.

Mr. S. B. Robinson, a wealthy citizen of San Francisco, who has been visiting this valley, left yesterday for Santa Barbara. Mr. Robinson contemplates purchasing property in this valley and making his home here.

A. R. Gunnison, agent of the Commercial Fire and Marine Insurance Company of California, left yesterday for San Francisco.

Mr. Findley Beatty, a successful Grass Valley miner, left this city yesterday for the Holcomb Valley Mining District.

Mr. J. S. Neill, an accomplished elocutionist and declaimer, who has time and again filled the lyceums and delighted the societies of San Francisco, arrived in this city yesterday, and we trust he will give one of his intellectual, truth-proving, evening lectures before leaving. As a reader of comic poetry Mr. Neill is unequalled, while his astonishing facial expressions will draw shouts of laughter from a confirmed hydropicist.

The People Read the "Herald."

From the Independent, April 11th.

The Los Angeles HERALD is running some well digested railroad articles—among the rest, one of estimated costs—some of which we shall reproduce soon.

Dr. Haskell's fourth lecture comes off to-night at Good Templars' Hall. The audience last night was very large, and he was greeted with round after round of applause. His lecture to-night is the one so much talked of in other places, entitled, "Woman, go thy way and sin no more." There will be no collection. Persons passing the door can contribute what their generosity may prompt; the proceeds to be devoted to charitable objects.

Dr. Haskell, the celebrated temperance lecturer, has forth again last night at Good Templars' Hall. He gave the "red-hot talk," as advertised, on the subject of twenty-five years of circus life. The lecture was composed principally of anecdotes drawn from his circus and theatrical experience, and all of the anecdotes were pointed with temperance morals.

Comments on Poultry Diet.

The Poultry World contains the following:

Cayenne pepper, mustard or ginger can with great benefit be added to the food of fowls to increase their vigor and to stimulate egg production. This apparently artificial diet will seem to be natural if we remember that wild birds of the gallinaceous species get access to very many high-spiced berries and buds; articles that give the "game flavor" to their flesh. The ordinary food of the domestic fowl is not, indeed, without some addition, since there is more or less of an aromatic principle in wheat, Indian corn and all other grains. Nevertheless, it is not sufficient in quantity to supply the place of the stronger spices, a taste for which is part of the fowl's inherited constitution. A moderate quantity of cayenne, etc., added to the ground grain is always productive of health and thrift in poultry.

Is it proper to speak of a poultry show as a "hen opera," considering that the hens attend nothing but the simplest lays?

Stage Arrivals and Departures.

COAST LINE.

DEPARTURES.

J. Calahan, Miss Aucher, J. Wright, S. B. Carille, J. Ladd.

THE COURTS.

District Court—REPLEVIN, J.

Monday, April 20th.

The trial of Ah Kong and Tung Si, indicted for murder, progress.

County Court—O'MELVET, J.

Monday, April 20th.

People vs. J. Heath—Demurrer sustained and indictment dismissed.

People vs. Gundulup Azar—Demurrer sustained and indictment dismissed.

People vs. John Rump—Continued for the term.

People vs. Frank Rivenin—Continued for the term.

People vs. John Wilson—Continued for the term.

Lewis vs. Anderson—Continued till Friday.

Hunt vs. Allen—Passed informally to be taken up by consent.

SPECIAL NOTICES.

* At Harris' & Jacoby's Cash Store

5,000 lbs Tobacco Dust for Sheepwash @ 7 cts. per lb.

At Harris' & Jacoby's Cash Store

Open Back White Shirts @ \$1.75.

Another fine lot of Jewelry, Watches, Diamonds, and Clocks, just received at Fisher & Co's.

Every style of Painting and Gilding done in the highest style, art, and at reasonable rates, by C. Ratbael & Co.

The tide of immigration is steadily setting in, and the first thing eastern people do is to throw away their "York Hats" and buy a new one of DESSMONT. They say there is no comparison between the two.

Eastern Dress-maker removed—Miss Logan, late from New York, has removed from Mrs. Park's millinery store to No. 29 Spring street, opposite the Court-house. Ladies may depend on the latest styles supplied directly from the East. Fitted garments and fitted patterns a specialty.

School and Miscellaneous Books, Law Books, and Blank Forms—Stationery, Blank Books, Albums, and Ladies' Writing Cases. Pianos, Organs, Violins and Accordion, and other Musical Instruments for sale at lowest prices, by BRODRICK & CO., Booksellers and Stationers.

\$10,000 worth of beautiful goods such as black silks, velvet, etc. alpaca, latest style of ties, bows, new dress goods, French lawns, plumes, ladies' and children's shoes; also, a fine lot of new and beautiful clothing, boots and shoes have been received at the new store important, under the Lafayette Hotel, and will be sold at lower prices than can be bought elsewhere.

To the Afflicted.

Grateful not only for entire relief from terrible suffering of seven years standing but for a perfect cure of internal piles by an operation scarcely more painful than any duty I owe to those similarly afflicted to give this testimonial of the skillful and efficient treatment of Dr. J. H. Leal of Los Angeles. Dr. Leal's success more highly appreciated than the fact that several of the prominent physicians of Los Angeles had treated me without success. RABEEL, MARY (San Gabriel), March 14, 1874.

Look at This!

The only place in the city to get choice Engravings, Chromos, Oil Paintings, etc., is at Mr. V. P. Pomeroy, 66 Main street, where you buy them cheap for cash, or pay in weekly installments of 25 cents to \$1, according to the amount purchased.

FINANCIAL AND COMMERCIAL.

GOLD REPORT.

SAN FRANCISCO, April 20th.

Gold, 115 1/2; Greenbacks—Buying, 85 1/2; selling, 85 1/2.

San Francisco Markets—By Telegraph.

SAN FRANCISCO, April 20th.

Flour—\$5 75/100.

Wheat—\$2 00/100.

Oats—\$1 50/100.

Potatoes—\$1 75/100.

Onions—\$1 70/100.

Butter—\$22 50/100.

Cheese—\$14 00/100.

Eggs—\$13 25/100.

Team Departures.

April 20th—To San Bernardino, 2, to M & L.

EXPORTS.

April 20th—845 bales wool, 100% bales wool.

202 bales oranges, 1 kg copper, 24 bales lemons, 18 bales cornmeal, 1 kg flour, 2 kg butter, 25 bales lemons, 1 box limes, 1 wheel, 87 bales bullion, 1 pipe wine, 1 bbl brandy, 11 dry hides, 1 bale sheepskins, 8 bales dried fruit.

Niles shipments since April 15th—41 bales cornmeal, 42 bales wool, 4 hides, 25 bales corn.

Real Estate Transactions.

Deeds filed for record for the 24 hours ending at 4 o'clock, April 20, 1874, as reported for the Daily Herald by Judson & Gillette.

Searchers of Records for Los Angeles county: Jacob Powers to H. H. Messinger—40 acres in Rancho Santiago de Santa Ana, Orange district; \$1,200.

Wm Ferguson to F. A. McNeill—Lot 11 of block B of Johnston tract; \$80.

J. Carl Eschrich to Louis Freeman—5 acres in northwest corner of quarter section 36, T. 18, R. 14 W.; \$100.

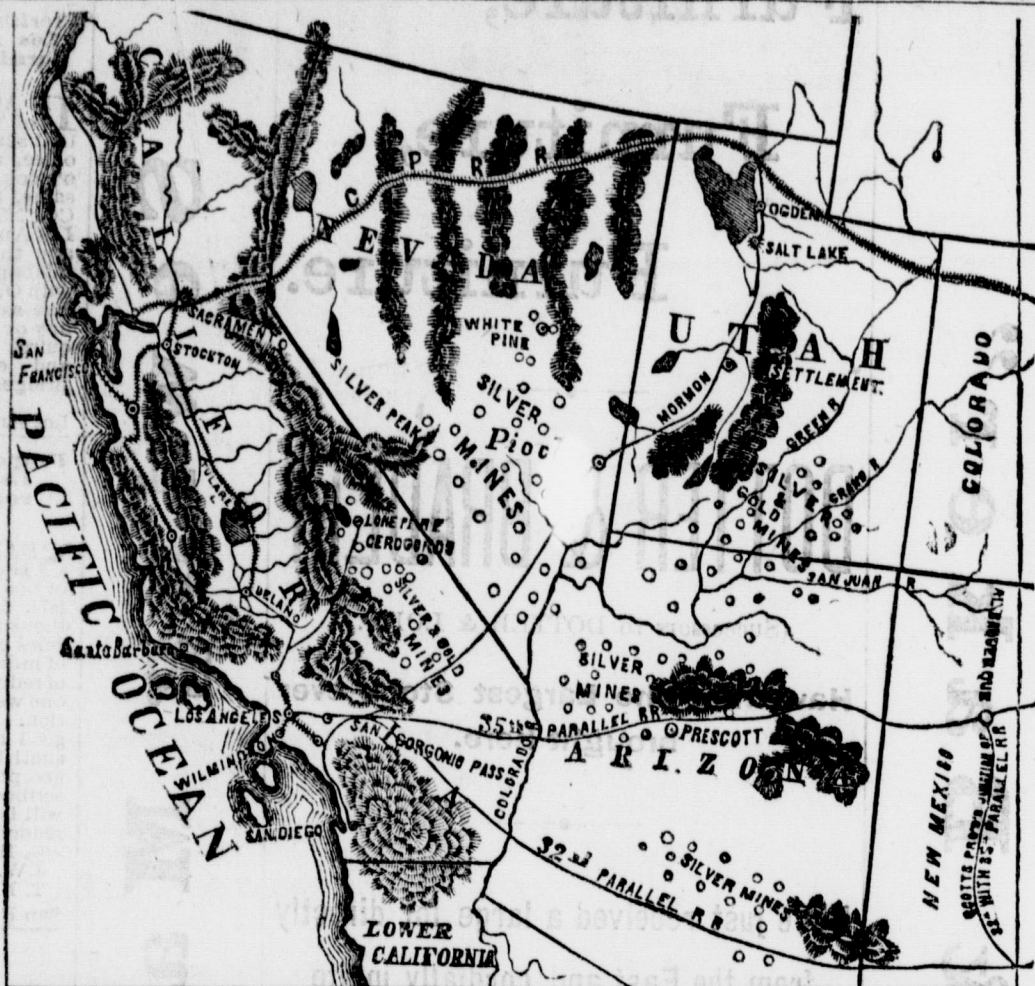

FREIGHT LIST.

The following is the list of freight which arrived on the steamer Senator, April 20th:

A. G. C. 11 1/2; A. S. M. 11 1/2; A. W. S. 11 1/2; B. & C. 11 1/2; B. & D. 11 1/2; B. & E. 11 1/2; C. & E. 11 1/2; C. & F. 11 1/2; C. & G. 11 1/2; C. & H. 11 1/2; C. & I. 11 1/2; C. & J. 11 1/2; C. & K. 11 1/2; C. & L. 11 1/2; C. & M. 11 1/2; MAP OF OUR BACK COUNTRY.

Map showing the geographical and commercial position of Los Angeles; the system of Trans-Pacific Railroads on the Pacific Coast; the impassable ranges of mountains parallel to the coast north and south of San Geronimo Pass—the only natural pass in the mountains from Lower California to Oregon; showing also the largest and richest mining region in the world tributary to Los Angeles; showing the proposed railroads to the rich mines of Cerro Gordo to Salt Lake; also the thirty-fifth and thirty-second parallel routes and their junction at Albuquerque, as proposed by Col. Scott. The names of the following important places in the country are omitted from the map for want of space: Anaheim, population, 1,500; San Gabriel, 200; El Monte, 100; Spadra, 50; Westminister, 50; Compton, 50; San Fernando, 50; Florence, 50; Tustin City, 50. These are each the nucleus of a rich farming section.

Los Angeles Herald.

COUNTY OFFICIAL PAPER
TUESDAY..... APRIL 21, 1874.

San Diego Items.

From the World and Union.
From a gentleman who has just returned from a trip through the county, we learn that the crops are looking superbly.

The leading anxiety in San Diego today is to know what gentlemen are willing to serve as trustees for the ensuing term.

The first load of barley-hay which has reached San Diego this year from the Mission was brought in yesterday from Stone's place.

"Ho for the mines!" is all the cry in San Diego now-a-days. Visitors are pouring in on the steamers with Julian, Japa and Bladen on the brain.

Mr. Hawver informs us that on the 10th instant eight inches of snow fell at Julian. This was about the time of the commencement of the last rainfall here.

The outlook at the Julian mines is regarded better than ever. Everything will go forward with a "rush" when the case is finally settled by Secretary Delano.

The Spring clip of wool is coming in quite briskly. The merchants inform us that it is the cleanest and best they have ever seen in the county.

A party are on the way from San Francisco to examine the La Trinidad mine, near San Rafael, Lower California, with a view of purchasing.

The crops in the Cajon are looking finely. There will be a splendid harvest out there. The farmers are naturally happy. Grain is growing very rapidly.

Mr. W. F. Foster, of San Diego, was in town yesterday. He says the crops are looking splendidly out there, and that the barley is already heading out.

Dow Schultes, one of the owners of the Quachate mine, brought to Maricopa Wells, this week, about 6,000 pounds of very rich ore for shipment to San Francisco. The Quachate is the recent discovery made in Morgan Mountain.

Thomas Gardner brought in about a ton of very rich ore from the Trench mine this week, which the owners intend to send to the Colorado Smelting works for reduction. The Trench lode is increasing in width as they go down on it.

Mr. Treat got in from the mountains yesterday, and reports eleven inches of snow on the Cuyamaca range, the 10th instant. He found the Paguay road rather hazardous, but managed to dig his wagon out with pick and shovel.

J. J. Muller and Samuel Hughes returned this week from Sierra mines, south of Tucson. Mr. Muller is a scientific and practical miner, and says that he was surprised to find such quantities of rich ore. He predicts a great future for these mines and with proper management believes that they can now be made pay handsomely and give employment to hundreds of our miners.

G. R. Dodson brought some very rich silver ore to town, on Monday, from a new discovery made in the Silver Mountain Mining District, about fifty miles west of Tucson. He says there is about four feet of nearly pure metal in the lode, and good judges are of the opinion that it will pay several hundred dollars to the ton. It is the intention of the owners to ship several tons of the ore to San Francisco, as soon as they can get it out.

B. P. Campbell got in from Japa yesterday. He says work is not as brisk at that camp as during the fall and early winter. Ben Glidden, an old placer miner from the upper part of this State, had commenced running a tunnel a day or two before Mr. C. left, but had not advanced far enough to form an opinion as to what the result would be. Miners are still going to the camp. Mr. Campbell having met about twenty bound for that section.

We noticed last week the rich discovery made in Morgan Mountain by Pat Morgan and others. It is said to be near a monster lode of galena ore that contains a large per cent. of silver, and it is thought by some to be part of the same vein. The walls of these lodes are said to be regular and give evidence of being true fissure veins of great value. We should not be surprised if this ore belt in Morgan Mountain proved equal to the few great silver mines in South America and Mexico.

The Union says for several months the large flock of prairie chickens which A. W. Sisson imported to the State and let loose upon his ranch near Rocklin, about a year and a half ago, have not been heard from, but a day or two ago we learned that a number of them had been seen in the upper part of the county and appeared to be quite at home. Last Fall they were seen in various parts of the county, several of them having broods of young ones—one of them having seventeen. It is evident that if they are not molested for a year or two longer, sportsmen will find them quite numerous.

Anaheim Paragraphs.

From the Southern Californian.
Three-sixteenths of an inch of rain fell on Saturday and Sunday.

Teams loaded with wool are arriving at Anaheim Landing every day.

Much annoyance has been caused lately by the many drunken Indians lying around the street.

We understand that an effort will be made to induce the artesian well-borer, who is now in Los Angeles, to bring his machinery to Anaheim. Mr. Sheffield will sink for artesian water on his vineyard.

Tulare Items.

From the Delta and Times.
The Grangers of Mussel Slough will, we understand, get up an old-fashioned Fourth of July celebration over in their burg this year.

A man by the name of Wm. Hector was injured, on Friday last, by being thrown from a horse and having the horse fall on him. Both legs were broken—one just below the knee, the other above the ankle.

A petition for an election under the local option law, is being circulated through the western part of the township, which is believed to have a large majority in its favor.

On Tuesday morning last the community was aroused at about the hour of three o'clock with the cry of "fire!" The store of Mr. Yount, at the corner of Court and Acequia streets, was found to be in flames. Eureka Engine Company was promptly on hand and the fire extinguished before the flames had communicated with more than one-fourth of the roof.

We understand that Leland Stanford has informed a committee of our citizens that he will, during the present week, submit to their consideration definite proposals respecting the terms on which he will operate a branch road to Visalia.

A local option petition is being circulated in Porterville and vicinity, which is obtaining many signers. We are informed that they have two new parties started known as "palmsingers" and "saloon men." From present appearances the former party will be victorious.

Everything promises that this will be one of the most prosperous seasons that has been in this part of the State for several years. There has been sufficient rain, even to the present, to keep all kinds of vegetation in a good, growing condition. The recent rains will prove of great value in perfecting crops of all kinds. The earth is now so thoroughly saturated that crops will be good if there is no more rain this season.

There is little doubt that the local option law will be carried in this municipality, and we presume it is likely to be carried with still greater force in the other districts of the county which are now petitioning the Board of Supervisors to call the elections. Drunken officials are contributing largely to the result.

Statistics of the Globe.

The earth is inhabited by about 1,500,000,000 of inhabitants, viz.: Of the Caucasian race there are 300,000,000; of the Ethiopian, 100,000,000; of the Mongolian, 450,000,000; of the Malay race, 200,000,000; and of the American Indians, 1,000,000.

All these respectively speak 5,044 languages, and profess 1,000 different religions.

The amount of death per annum is 33,333,333, or 91,550 per day, 3,730 per hour, or sixty per minute, or one every second.

The average duration of life throughout the globe is 33 years. One-fourth of the population dies before the seventh year, and one-half before the seventeenth. Out of 10,000 persons, only one reaches his hundredth year; only one in 500 his eightieth; and one in a hundred his sixtieth.

Married men live longer than unmarried ones, and a tall one is likely to live longer than a short one. Until the fiftieth year women have a better chance of life than men; but beyond that period their chances are equal.

Sixty-five persons out of 1,000 marry. The months of June and December are those in which marriages are most frequent.

Children born in Spring are generally stronger than those born in other seasons.

Births and deaths chiefly occur in the night.

The number of men able to bear arms is about one-eighth of the population.

This is the way it happened: Susan Brown and Charles Cady were sitting up together in Georgia, when old Brown came in with a shotgun and Charles pulled a revolver and whanged him full of bullets. The corner's jury said it was a justifiable case of manslaughter, and sparking hasn't been interrupted since.
